## *Vision*

To provide a safe place where abused women can be rehabilitated to become self-sufficient, productive members of society.

## *Mission*

To facilitate the rehabilitation of abused women through programmes aimed at reshaping their moral and ethical values, by providing help for their spiritual, emotional and physical well being and providing financial management skills, thus empowering them to build better families and communities.

## *Our Origin*

The name Nekevah is the Hebrew word used for female in Genesis 1:27 "So God Created Man.....Male (Zakar) and female (Nekevah) created he them."

## *Target Group*

Abused women aged 15-50 from Trinidad and Tobago. Survivors of domestic violence (i.e. women and their children) whose lives are in danger and in urgent need of a temporary shelter. Children are accepted along with their mothers.

## *What Do We Have To Offer*

- Provision of necessary temporary shelter.
- Development of a God consciousness with moral and ethical values through Bible study, workshops, mentoring program (inclusive of a buddy system) drama ... etc.
- Empowerment for abused women through education programs, which cater to the development of basic life skills such as numeracy, literacy, proper diet and exercise.
- Enhancement of their opportunities for employment by exposing them to training options, government programs and other institutions which lend support to nationals.
- Provision of training in social graces and financial planning.
- Provision of counseling services needed to build healthy family relationships and self-esteem.
